# A REALTOR'S GUIDE TO PAINT & STAIN + BIOPHILIC ARCHITECTURE AND INDOOR PLANTS

Instructed by Abby Vasek via ZOOM

## TWO 1 HR CE CLASSES:

### **A Realtor's Guide to Paint & Stain #50597**

*Exploring the common yet often challenging subject of selecting paint colors & stains for a home with resale in mind. This class provides instructions for placement and selection of sheens for the interior and exterior plus a handful of dependable neutrals and trending colors.*

### **Biophilic Architecture & Indoor Plants #52482**

*Increasing consumer interest in urban gardens and 'greener homes' that utilize natural finishes, organic patterns, and more natural lighting is just a few of the ways the Biophilic trend impacts home development. This class prepares Realtors to meet this rising interest by exploring the principles of Biophilic Design and sustainable smart home technologies. We also explore a list of the most popular air-purifying indoor plants and resources for their care. This class gives Realtors a fresh boost of relevant knowledge in a hot home topic!*
