School Performance & Accountability Ratings

2025 ACCOUNTABILITY SYSTEM OVERVIEW

The overall design of the accountability system evaluates performance according to three domains:

STUDENT ACHIEVEMENT evaluates performance across all subjects for all students, on both general and alternate assessments; College, Career, and Military Readiness (CCMR) indicators; and graduation rates.

SCHOOL PROGRESS measures district and campus outcomes in two areas: Academic Growth and Relative Performance.

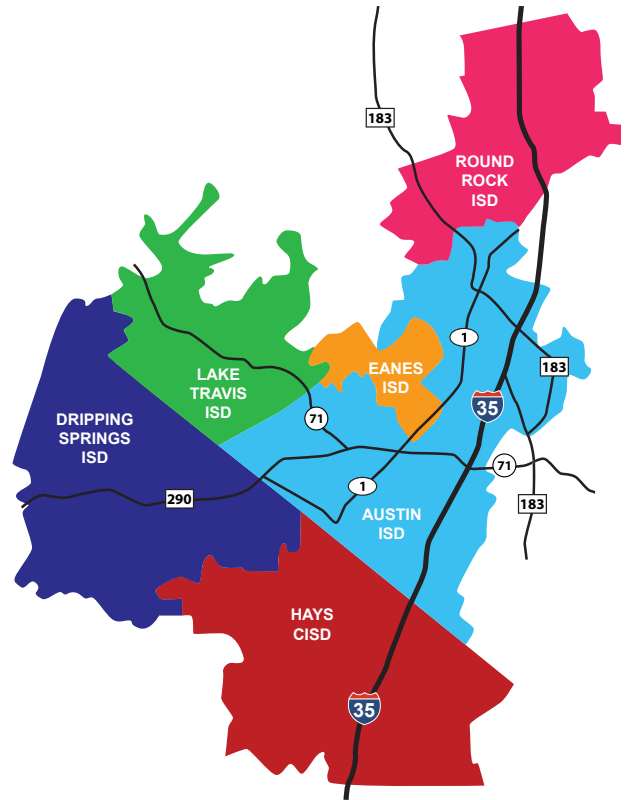

Academic Growth

% of students who improved at least one year on STAAR and %% of students who moved from “Did Not Meet” last year to “Approaches or higher” this year.

Relative Performance

How student achievement compares to schools with similar levels of economic disadvantage.

CLOSING THE GAPS uses data to demonstrate differentials among racial/ethnic groups, socioeconomic background, and other factors. The indicators included in this domain, as well as the domain’s construction, align the state accountability system with the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA).

WHO IS RATED?

Districts and campuses that report students enrolled on the Fall Snapshot date in the accountability year are assigned a state accountability rating. For this purpose, students are considered enrolled if they are in membership. In order for a student to be in membership they must be scheduled to attend at least two hours of instruction each school day or participate in an alternative attendance accounting program.

DISTRICTS

School districts are rated beginning the first year they report fall enrollment. Districts without any students enrolled in the grades for which STAAR assessments are administered (3–12) are assigned the rating label of Not Rated. Districts are rated using proportionally weighted domain scores of each campus, based on the number of students enrolled in grades 3–12 at each campus in the Texas Student Data System/Public Education Information Management System (TSDS PEIMS) October Snapshot.

CAMPUSES

Beginning the first year they report fall enrollment, campuses, including alternative education campuses (AECs), are rated based on the performance of their students. To assign accountability ratings, campuses that do not serve any grade level for which the STAAR assessments are administered are paired with campuses in their district that serve students who take STAAR.

RATING LABELS

Districts and campuses receive an overall rating, as well as a rating for each domain. The rating labels for districts and campuses are as follows.

- **A, B, or C:** Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability) that meet the performance target for the letter grade
- **Not Rated:** Indicates that a district or campus does not receive a rating for one or more of the following reasons:
 - The district or campus has insufficient data to assign a rating.
 - The district operates only residential facilities.
 - The campus is a juvenile justice alternative education program (JJAEP).
 - The campus is a disciplinary alternative education program (DAEP).
 - The campus is a residential facility.
 - The commissioner otherwise determines that the district or campus will not be rated.
