Sip & Learn

— UNDERSTANDING CREDIT REPORTS FOR REALTORS —

This course is designed to provide real estate professionals with a comprehensive understanding of credit reports and their significance in the homebuying process. Participants will learn how credit reports are generated, how to accurately interpret them, and how credit scores impact a client's ability to secure financing.

The course will also explore practical strategies for helping clients improve their credit profiles and navigate common credit-related challenges. Enjoy a guided wine tasting while discussing real-world scenarios and gaining valuable insights to better serve your clients and strengthen your understanding of the lending process.
